|---|--------|------|-------|--------|-------|
|---|--------|------|-------|--------|-------|

### Coach's Analysis

0-07 to 0-12 — Defeat, clear enough.

#### SCORING

- Converted 7 of 17 shots (41%) — workable.
- Kilcoo were the more clinical side (80% v 41%). They needed fewer chances to hurt you.

- 10 wides is a lot of possession turned into nothing. Worth reviewing shot selection rather than shooting technique.
- Frees: 2 from 4 (50%). Below where you want a dead-ball striker to be.

## HOW IT UNFOLDED

- First half 0-06 to 0-04, second half 0-02 to 0-08.
- The second half got away from you after leading the first. Worth asking whether that was fitness, substitutions, or Kilcoo changing shape.
- Longest scoreless spell was 22 minutes (from the 36th). Droughts that long usually decide tight games.

## KICKOUTS

- Retained 5 of 15 own kickouts (33%).
- Losing more than a third of your own restarts hands Kilcoo possession in good areas. This is usually the first thing to fix.
- Kilcoo kept 83% of their own restarts — you rarely got a foothold on their kickout.
- Losing the breaking ball more often than winning it (1 won, 5 lost). That is a midfield and support-runner issue rather than the goalkeeper.

## POSSESSION AND TURNOVERS

- Possession 57% / 43% (from tagged possessions).
- Had the majority of the ball and still lost. That points to what you did with it rather than getting it.
- Coughed up possession 19 times. Cutting that by a third is worth several scores.
- Most possession was lost through hand passes (9 times) — a specific, coachable pattern.
- Won 14 turnovers. The work rate off the ball was there.

## DISCIPLINE

- Cards: 1 yellow.

## Match Events

---

29 events recorded, in order of play.

| Min | Half | Event                          | Team     | Player       |
|-----|------|--------------------------------|----------|--------------|
| 3'  | H1   | Shot (Play) — point [D Centre] | Ballydag | #7 S. Murphy |
| 5'  | H1   | Shot (Play) — point            | Kilcoo   | #11          |
