

COACH STATS

GAA Football Match Statistics Tracker

User Guide — Version 6.0 — 2026

1. Introduction

Coach Stats is a Progressive Web App (PWA) for GAA and LGFA football coaches, analysts and managers. Record live match statistics, analyse match video, configure custom events, and track player performance — all from your phone, tablet or computer.

App URL:

<https://coachstats.netlify.app>

2. User Accounts & Subscription

Creating an Account

1. Open the app — the login screen appears
2. Tap the Register tab
3. Enter your email address and a password (min. 6 characters)
4. Tap Create Account then sign in

Match History Sync

Every match you save is stored both locally and in your account. If you clear browser data or sign in on a new device, your full match history restores automatically.

Subscription Plans

Tier	Monthly	Annual
Individual	£5 / month	£50 / year (save £10)
Club	£10 / month	£90 / year (save £30)

Signing Out

Tap the  Sign Out button in the top right corner.

3. Club Feature

The club feature allows a GAA club to create a shared account, manage multiple squads, and allow coaches to access their assigned squads. Club admins can configure custom events and performance scores that apply to all coaches in the club.

Create Club (Admin)

5. Tap the  button → Create Club → enter name and county

Join a Club (Coach)

6. Tap  → Join Club → enter the 8-character invite code from your admin

Tab	What it does
Squads	View all club squads. Tap any to load it. Add squads by grade or custom name.
Members	View your invite code. See and manage all members.
Reports	All saved matches grouped by squad. Tap any for a PDF report.
Settings	Edit club name and county.

4. Navigating the App

Tab	Name	What it does
	Match	Set up teams, venue, competition and game clock
	Record	Record all match events during play
	Trends	Live possession, score trends and match momentum
	Squad	Manage squad, player stats and performance scores
	Stats	Full match statistics table — save matches to history
	History	Search, browse and review all previously saved matches

Top-right buttons:  Club · ? Help ·  Event Settings ·  Sign Out

5. Match Tab

Match Info

Tap the Match Info heading to collapse or expand — auto-collapses on Start Game. Team names appear as a small label below the clock so you always know which match you're in.

Selecting Teams

- Tap the Home or Away button to open the team picker
- Type a county name to see all clubs from that county
- Type any part of a club name to filter the list
- Tap + Add New to save a new club permanently

Selecting Competition

Tap the competition button to open a searchable picker. Your 3 most recently used competitions appear at the top for quick access. Type to filter across all 100+ competitions.

Game Control — Clock

Phase	Button
Before kick-off	 Start Game
1st half running	 Half Time
Half time	 Start 2nd Half
2nd half running	 End Game

The clock pulses gently when running. When paused it shows  Paused so you can see the status at a glance.

Scoreboard

Shows the live score in goals–points format. The  Undo Home and  Undo Away buttons (highlighted in red) remove the last scoring event.

6. Record Tab

Events are grouped into Shots, Possession, and Discipline sections. Custom events added in Settings appear automatically. When you record an event the tally counter flashes to confirm the tap registered.

Shots Section

Outcome	Description
Point	Ball goes over the bar
Goal	Ball goes into the net
★ 2 Pointer	Successful 2-point attempt
Wide	Shot misses left or right
Short / Saved / Blocked	Other shot outcomes

After selecting a shot outcome, an optional 3×3 zone grid appears — tap a zone or Skip Zone.

Possession Section

Event	Outcomes
Ball Won	In Contact / Tackle / Interception
Ball Lost	Hand Pass / Kick Pass / In Contact / Handling / Over Carrying
Kickout	Won Clean / Break Won / Loss Clean / Break Loss / Short Won / Short Loss
45m Free	Scored / Wide / Short / Pass / Ball Lost
Turnover Forced	In Attack / Midfield / In Defence
Mark	Won / Lost

Discipline Section (collapsed by default)

Tap the Discipline heading to expand. Foul Given (Shooting / Cynical / Dangerous / Dissent) and Card (Yellow / Black / Red). Tag a player for maximum value.

Custom Events

Any custom events created in  Event Settings automatically appear in the correct section of the Record tab (Live or Both context). They work identically to built-in events including player tagging and performance scoring.

7. Tagging Events to Players

Any event can be tagged to a specific player. In the outcome panel, tap a player's name before selecting the outcome. Tagged events contribute to the player's Performance Score.

Tip: Tag cards to players — they are much less useful without knowing who received them.

8. Trends Tab

Shows live analysis as you record events. If no events have been recorded yet, an empty state prompt is shown.

- Possession % — rolling balance based on Ball Won / Lost events
- Score Trend — timeline showing how the score gap changed
- Match Momentum — scoring runs and momentum swings
- Team Possession Breakdown — how possession was gained and lost

9. Squad Tab

Managing Your Squad

The Squad tab shows a 34-slot grid. Tap any slot to open the player editor. Enter the player's name and tap Save Player — the button sits directly below the name field. Position selection is below and optional.

Player Stats & Performance Score

The Player Stats sub-tab shows a breakdown of all events tagged to each player. Each player card displays a Performance Score in the top right corner — a number calculated from all their tagged events using the configured performance point values.

Score	What it means
Green (+14)	Positive overall contribution — more good actions than mistakes
Red (-3)	More negative events than positive
Grey (0)	No events tagged, or balanced positive/negative

Default performance values: Goal +8, Point +5, Tackle +4, Turnover Forced (Attack) +5, Red Card -8, Wide -1. All values are configurable in  Settings.

Team Sheet

Tap Team Sheet to see the squad in a standard GAA formation. Tap  Print / Save PDF to export.

10. Stats Tab

The full match statistics table comparing both teams. The heading shows 'Live Match' or the loaded match name. Video tags section appears when a tagged match is reloaded.
Tap Save Match to save — the banner turns green to confirm and the match syncs to your account.

11. History Tab

Searching History

A search bar at the top of the History tab filters matches in real time by team name, competition or venue. The match count updates as you type.

Match Cards

Button	What it does
 Full Stats	Opens detailed stats, including video tags if present
 Report	Generates a full PDF report including video tags
 Video	Opens Video Analysis for that match
 Reload	Loads the match back into the live tracker
 Delete	Permanently removes the match

New Video Analysis

Tap the  New Video Analysis button to start a video-first workflow — enter team names and a video URL without needing a live recorded match.

12. Video Analysis

Opening Video Analysis

From any saved match card tap  Video, or use  New Video Analysis from the History tab for a fresh session.

Loading a Video

Paste a YouTube link or direct MP4 URL and tap Load Video. The URL is remembered for that match.

Tagging Events

7. Select Home or Away team tab
8. Tap ▲ Hide Video to collapse the video if you need more space for buttons
9. Play the video and tap event buttons as events happen
10. Select an outcome from the picker — or tap Cancel to tag without one
11. A flash confirmation appears with the exact timestamp

Timeline, Tag List & Export

A coloured timeline dot appears for each tag. Tap any dot or anywhere on the timeline to jump to that position. Use Home / Away filters to see one team's events. Tap 📋 Copy Clip List to copy a formatted text list of all tags with timestamps.

13. Event Settings

Tap the ⚙️ button in the top right corner to open Event Settings. Changes made by a club admin apply to all coaches in the club automatically.

Events Tab

Lists all events grouped by category. Tap any event to open the editor.

Field	What it controls
Icon	Emoji shown on the trigger button
Label	Name shown on the button and in reports
Category	Shots / Possession / Discipline / Custom — determines which section it appears in on the Record tab
Context	Live Only (Record tab only) / Video Only / Live + Video (both)
Outcomes	Add, edit or remove individual outcomes for the event

Default events (Shot from Play, Ball Won etc.) can be edited but not deleted. Custom events can be fully removed.

Tip: Tap + Add Custom Event to create a completely new event type from scratch.

Performance Tab

Each event outcome has a performance point value. Edit any value directly and tap Save Performance Scores.

Example outcome	Default value
Goal (Shot from Play)	+8
Point (Shot from Play)	+5
Tackle (Ball Won)	+4

Turnover Forced In Attack	+5
Wide (Shot from Play)	-1
Hand Pass (Ball Lost)	-2
Cynical Foul	-3
Red Card	-8

Club Config Sync

- Club Admins — event config saves to the club. All coaches in the club pull this config on sign-in.
- Club Coaches — see the config in read-only mode. Contact your admin to request changes.
- Personal accounts — config saves to your own account only.

14. Match Reports

12. History tab → tap  Report
13. Report opens in a new window
14. Tap Print / Save PDF — on iPad tap Share to save or email

Report includes: cover, KPI tiles, full stats comparison, shooting, ball won/lost, kickout, turnovers, discipline, player contributions, and video analysis tags (if present).

15. Offline Use

- All match recording works without internet
- Full club/county database (1,200+ clubs) built in
- Squad, event config and match history stored on device
- Syncs to your account on next connection

Tip: *The app needs internet the first time it loads. After that it works fully offline.*

16. Installing on Your Device

iPhone / iPad (Safari only)

15. Open <https://coachstats.netlify.app> in Safari
16. Tap the Share button → Add to Home Screen → Add

Tip: *You must use Safari on iPhone/iPad. Chrome does not support Add to Home Screen on iOS.*

Android

17. Open in Chrome → tap Install when prompted

Tip: *Delete and reinstall the PWA to force the latest version.*

17. Troubleshooting

Issue	Solution
Login buttons not responding	Delete the PWA and reinstall fresh from Safari.
Match history disappeared	Sign back in — matches restore from your account automatically.
Custom events not appearing	Check context is set to Live or Live + Video in  Settings.
Club coaches can't edit events	Club coaches see config in read-only mode — ask your club admin.
Performance scores all zero	Tag events to players during recording — untagged events don't contribute.
Video won't load	Check embedding is enabled on the YouTube video. Try an MP4 URL.
App shows old version	Delete the PWA and reinstall from Safari.
Match report not opening	Allow popups in browser settings for the site.

18. Quick Reference

Task	How
Register	Login screen → Register tab → email and password
Subscribe — Individual	Upgrade → Individual → £5/month or £50/year
Subscribe — Club	Upgrade → Club → £10/month or £90/year
Create a club	 button → Create Club
Select competition	Match tab → tap competition button → recents shown or search
Start the clock	Match tab → Game Control →  Start Game
Record a shot + zone	Record → Shots → tap outcome → tap zone (or Skip Zone)
Record foul / card	Record → Discipline heading → Foul Given or Card
Add custom event	 Settings → Events tab → + Add Custom Event
Edit performance scores	 Settings → Performance tab → edit values → Save
View player performance	Squad tab → Player Stats — score shown on each player card
Tag event to player	Tap player name in outcome panel before selecting outcome
Search match history	History tab → type in search bar — filters by team, competition or venue
New video analysis	History tab →  New Video Analysis → enter teams + URL
Hide video while tagging	Video Analysis → tap  Hide Video
Export clip list	Video Analysis →  Copy Clip List
Save a match	Stats tab → Save Match — banner turns green to confirm
View match report	History tab →  Report
Add a player	Squad tab → tap slot → enter name → Save Player

Print team sheet

Squad tab → Team Sheet →  Print / Save PDF
